

Total Connect Services

COMMUNICATIONS SOLUTIONS FOR EVERY
FAMILY AND LIFESTYLE

Stay Connected...

Honeywell

...Anytime, Anywhere!

With Honeywell's Total Connect Services, You're Always in Touch.

As technology brings the world closer together, the need to feel connected is a reality today. For the ultimate peace of mind, more of today's families are relying on Total Connect, the state-of-the-art communications solutions from Honeywell. Total Connect lets you take advantage of all of the amazing benefits next-generation digital technology can provide—helping you strengthen bonds, enhance communication and stay connected to your property and the people you love...when you're home and when you aren't. It's never been a better time to get connected!

How it works

Whether you're at home, across the street or across the country, Total Connect lets you utilize the Internet, PDAs, cell phones and other web-enabled devices to control your security system, receive information remotely

and much more. And our Video Services option allows you to keep a close eye on your home and family from any remote location with Internet access.

Total Connect actually simplifies and streamlines the way you interact with your home on a day-to-day basis, helping you and your family stay connected by intelligently utilizing everything today's technology has to offer.

With Total Connect you can:

- Control your security system via a virtual keypad using any web browser on a PC, or via SMS on a PDA or cell phone
- Receive important alerts through any text messaging device, including cell phones and PDAs (e.g. receive an e-mail when your child has arrived home safely from school)
- Be notified of activity in various areas of your home (e.g. when doors have been opened or closed, when the security system has been armed or disarmed, when a safe or liquor cabinet has been opened)
- Utilize optional video services to receive images of specific activity occurring around the interior or exterior of your home (e.g. if the housekeeper leaves) a PDA—even your cell phone!

Communications Solutions

for Every Family and Lifestyle

Protected...and Connected

Life can be so hectic! Between both of us working and having teenagers with busy schedules, it's hard to keep track of everything that's going on. Total Connect services have been a lifesaver. Now I know exactly when my children get home from school because I receive e-mail alerts. When the kids are home alone, we can make sure they're okay by receiving video notification if someone is at the door and a text message when the door is open. We can even be notified if the liquor cabinet was opened. Total Connect helps us feel close to our family and home even when we can't physically be there. We can't imagine life without it!

The Picture-Perfect Vacation Home

Last year we purchased a vacation home. It's a great investment, and we plan to spend a lot more time there when we retire in a few years. In the meantime, Total Connect has provided us with an easy way to keep tabs on our property when we can't be there in person. We also have someone who checks up on the place once a week and can see exactly when he was there by checking the event history on the virtual keypad. Since the vacation home is in a warm climate, we're aware of the risks for flood and temperature detection, and can receive immediate alerts if there is ever a cause for concern—letting us take action to help prevent damage. Total Connect has given us tremendous peace of mind by letting us check up on our "home away from home" whenever we want, wherever we are!

Bridging the Distance Gap

My parents retired and moved to Florida almost 20 years ago. Now Dad is gone and with Mom living alone, I can't help but worry. Thanks to Total Connect, distance is no longer an obstacle when I need to know she's safe...even though she's 1,000 miles away. In fact, it can bridge the gap in ways that make me feel like I'm really there.

We had a camera placed in mom's hallway, which she passes through constantly. It's a great way to make sure she's alright without infringing on her privacy. I can also use the event history to keep track of Mom's comings and goings. She wears an emergency pendant, and should she ever press one of the buttons, it will notify the central station and send a text message to my cell and an e-mail to my PC and PDA so I'll know if she's in trouble. Whether I'm at work, at home or traveling, I can log in and see that Mom really is okay thanks to Total Connect.

Here's Looking at You, Kid!

As a working parent it can be so hard to balance things. When I'm in the office, I really miss my baby! Even though I have a terrific nanny, I feel so much better knowing I can take a look at my child whenever I want with Total Connect services. It's so easy! All I have to do is log into the secure website and I can view any of the cameras my alarm company set up throughout my home. I can even receive e-mail alerts when the nanny leaves and returns from taking the baby for her morning walk. There's nothing better than the peace of mind that comes with feeling connected...it's the next best thing to being there.
